

# Own Your Mood

Your Voice. Your Data. Your Peace of Mind.

We all carry the weight of the day. Offload it in 60 seconds.

# We All Carry the Weight

Traditional journaling feels like homework. Speaking is release.

## Mental Clutter

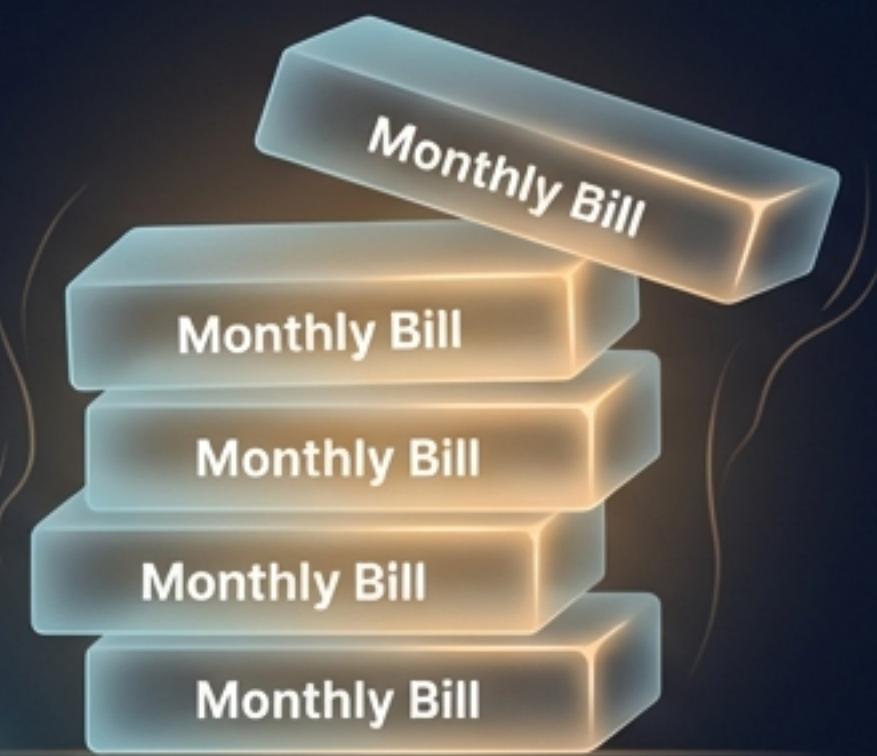

## Voice-First Clarity

Users quit traditional  
text apps after **3 days**.

# The Compromise We Shouldn't Have to Make

## Subscription Fatigue

Economics: Renting your mental health creates anxiety. 30% churn in month one.

## The Privacy Paradox

Trust: The "Intimacy Paradox" prevents honesty when data lives on a corporate server.

# 60 Seconds to Clarity

Voice-First.  
Just talk. No typing  
friction.

Instant Analysis.  
AI detects mood tone  
automatically.

Total Privacy.  
Data never leaves  
this device.

# Turn Reflection into Routine.

Gamification without Anxiety.

No social leaderboards.

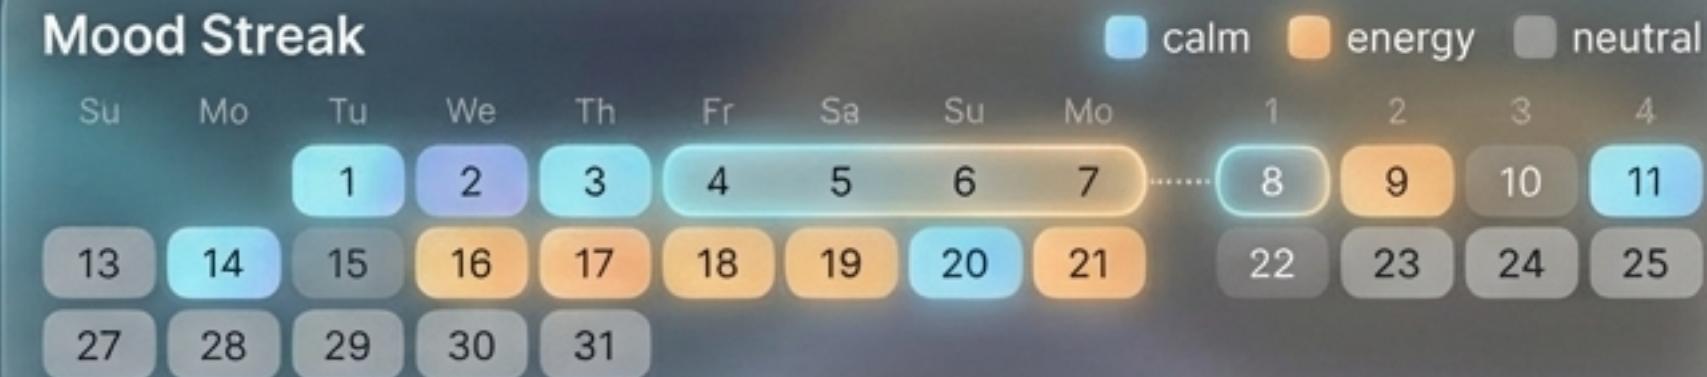

No public pressure.

Just personal growth  
through the  
Goal-Gradient Effect.

## Your Emotional Journey.

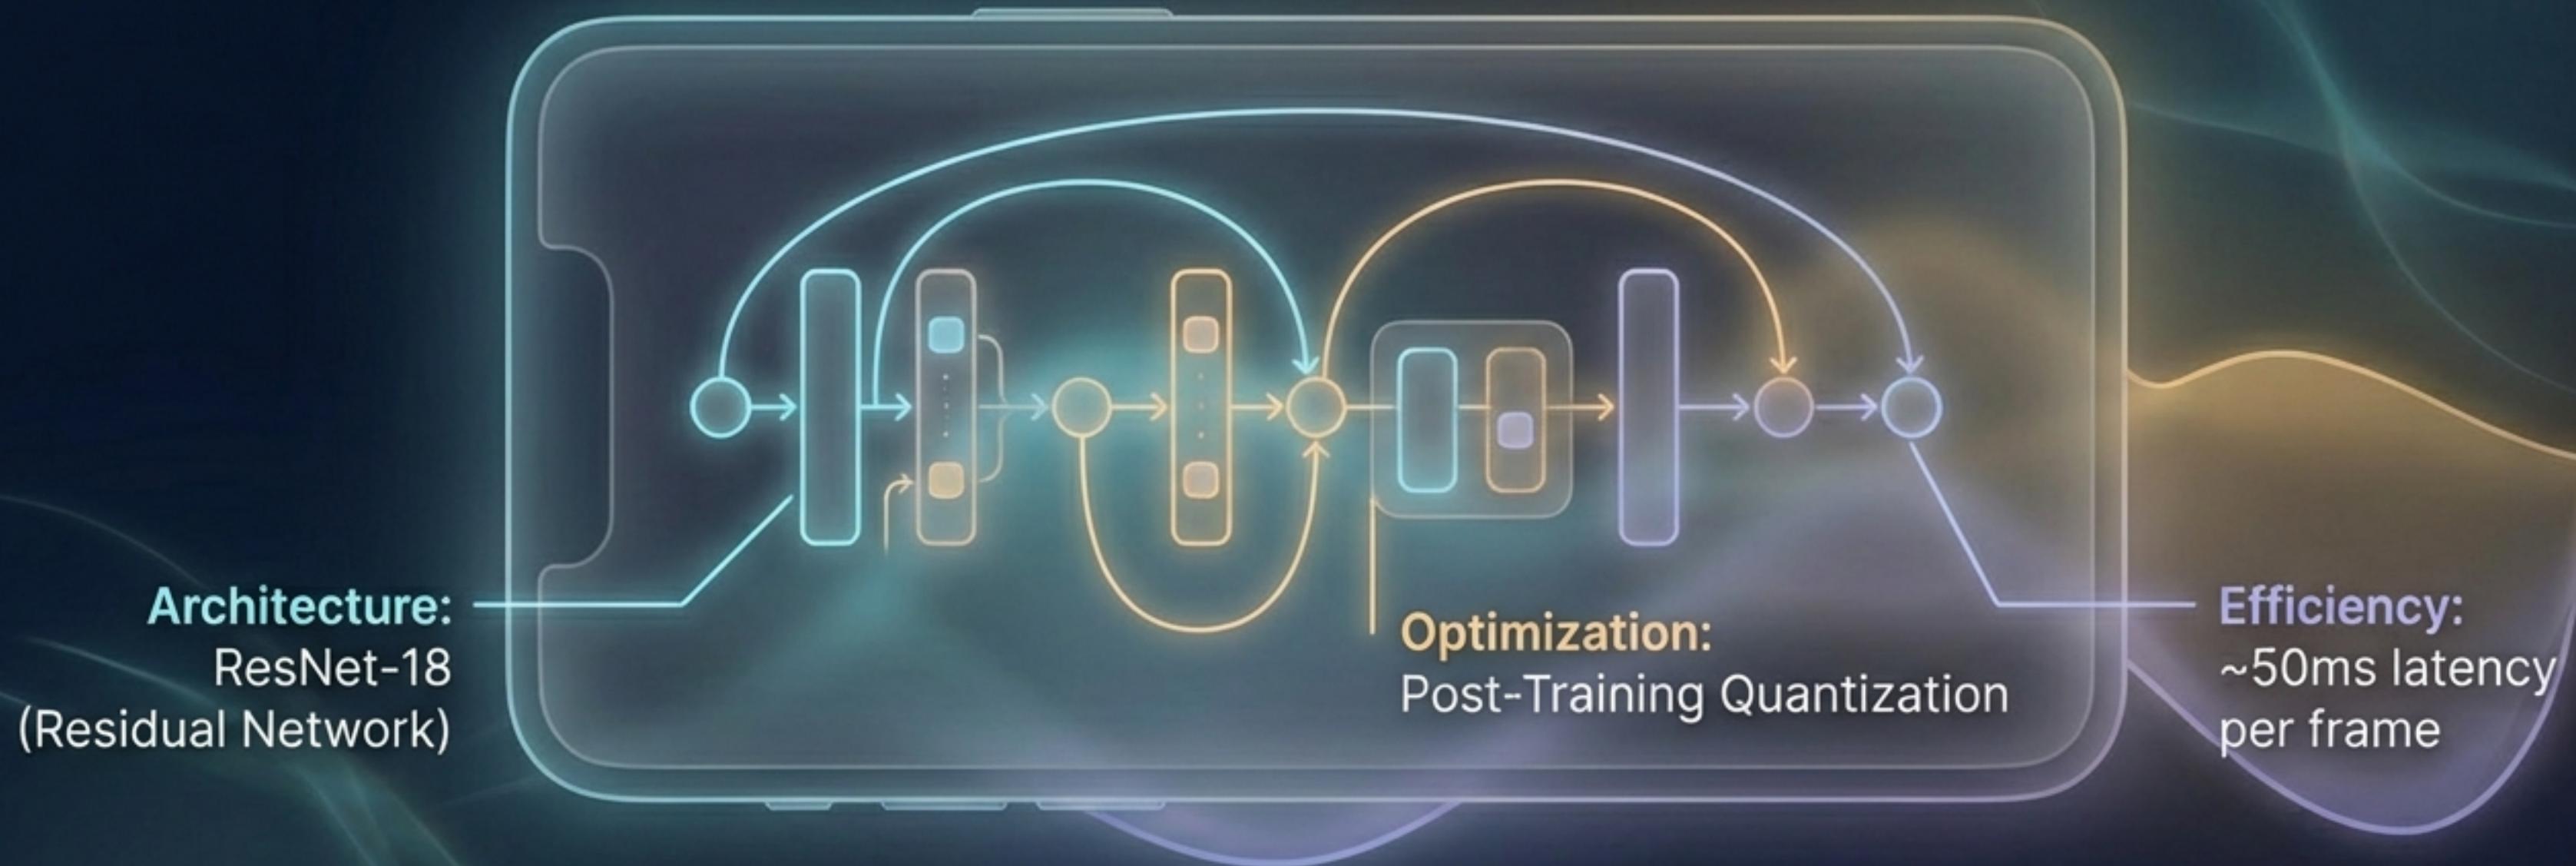

### Mood Streak

### Mood Balance

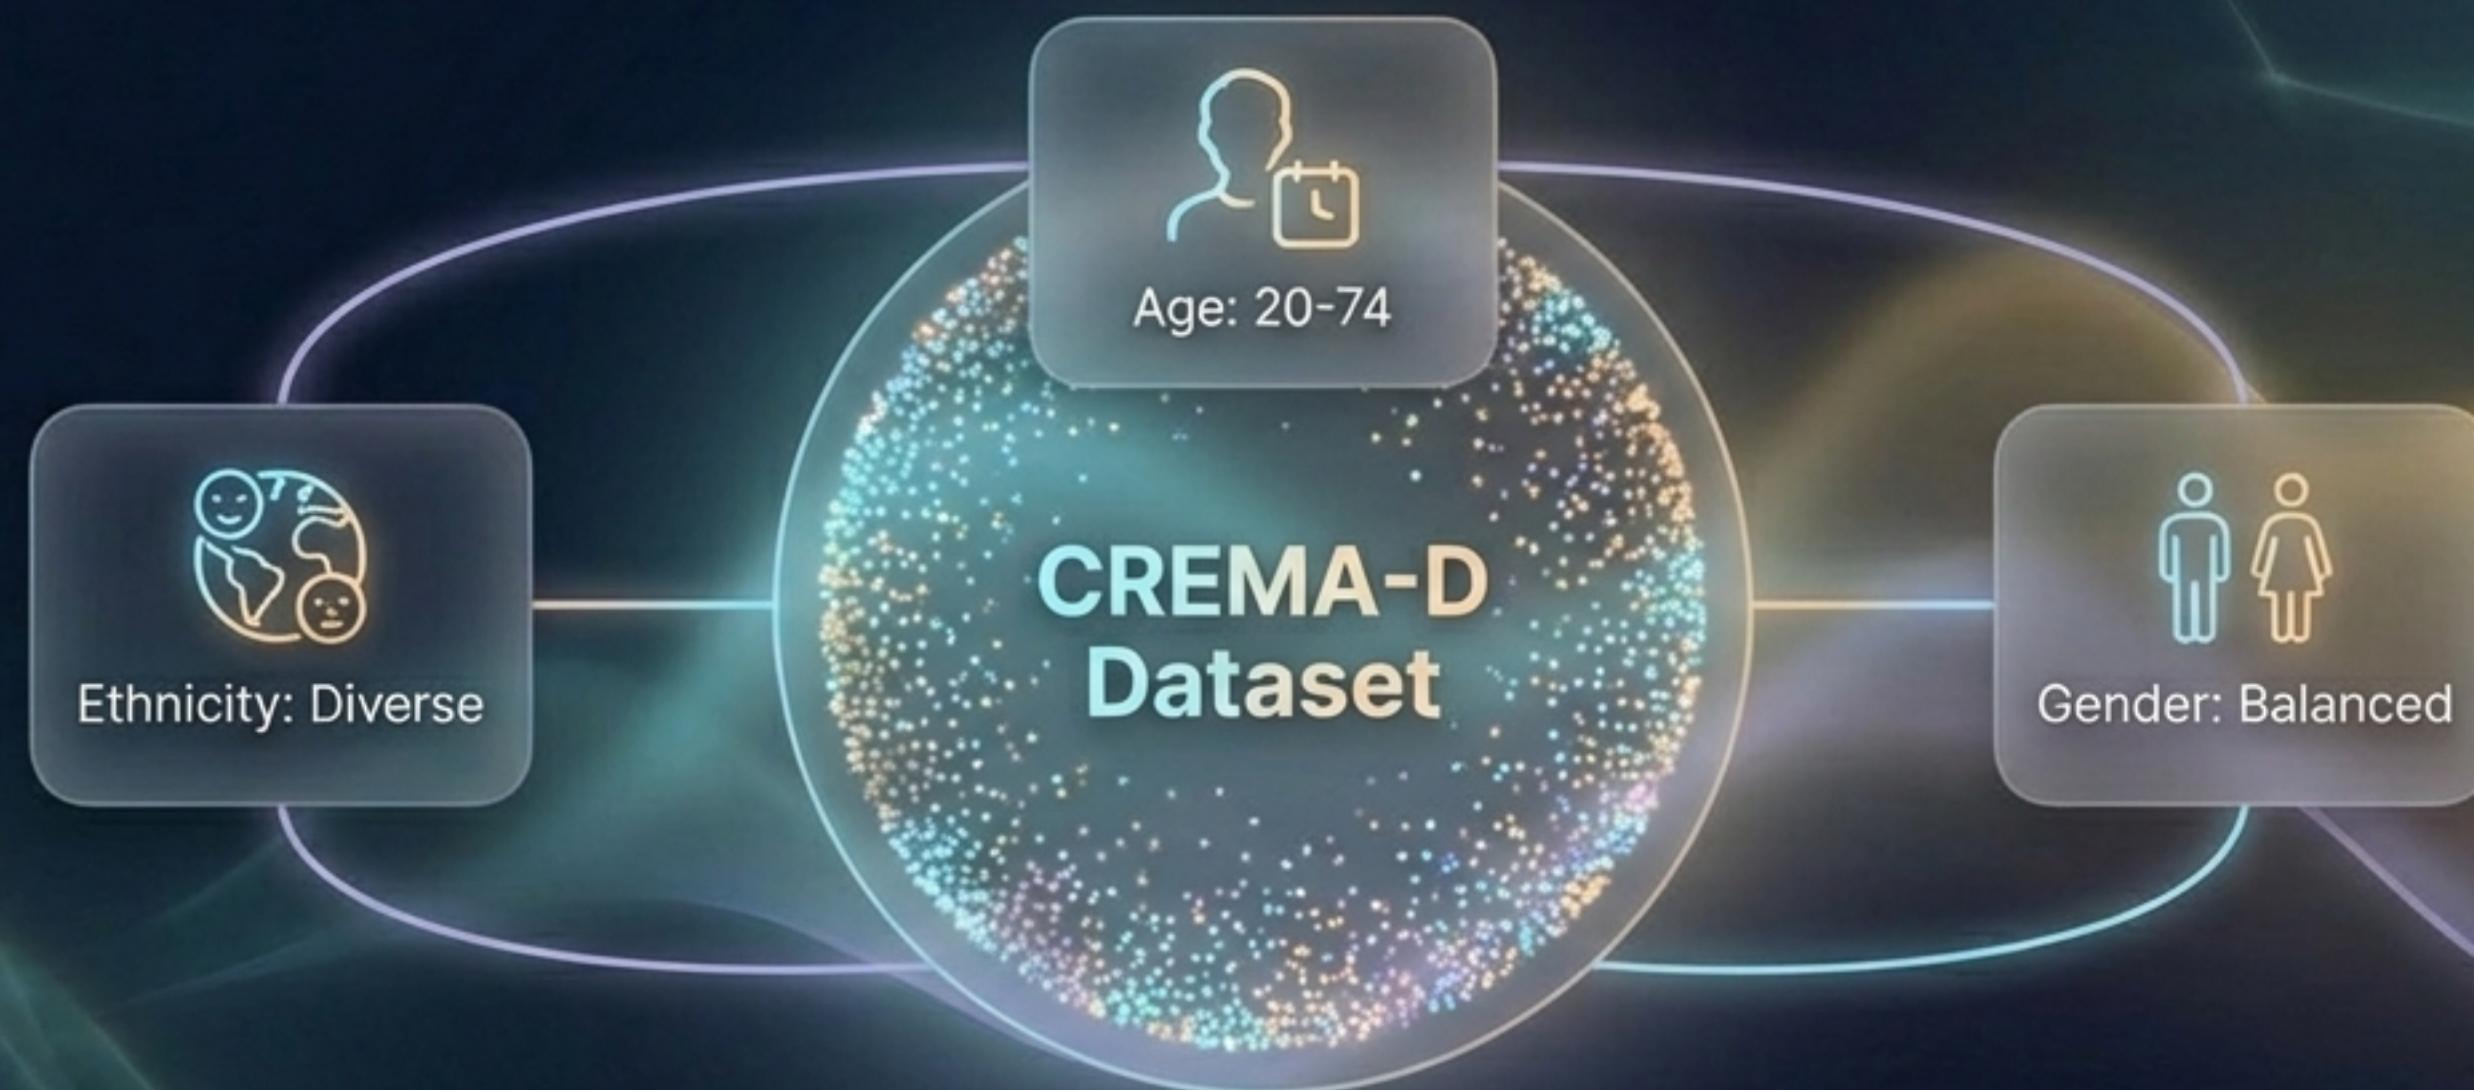

# Lab-Grade AI. Pocket-Sized Efficiency.

Captures vocal nuances (pitch, intensity, rhythm) entirely on-device. No cloud processing required.

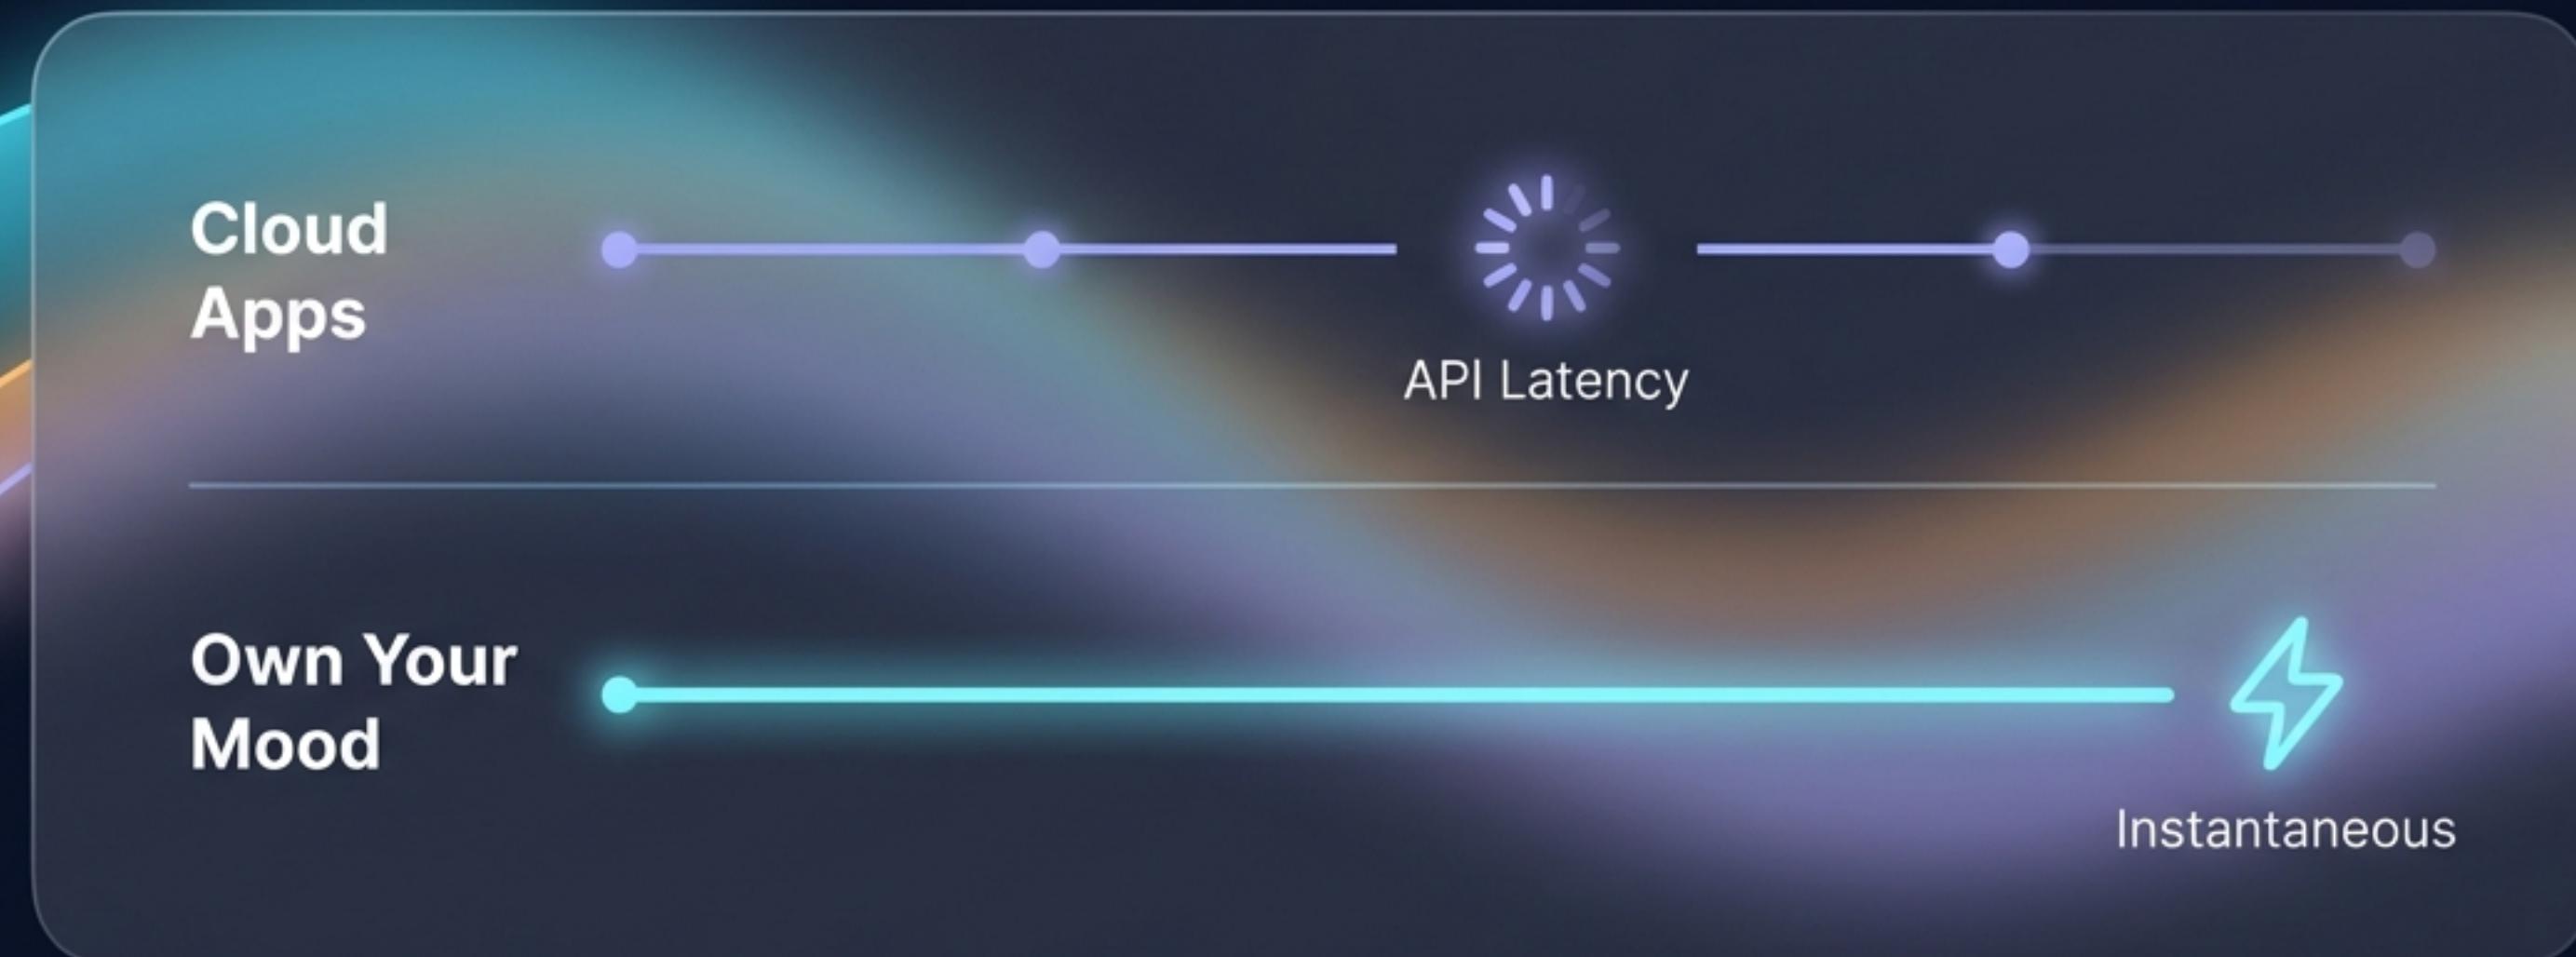

# Trained on Human Diversity.

7,442 clips. 91 actors. Robust generalization.

We train on diverse vocal biomarkers to avoid overfitting,  
ensuring the AI understands *your* unique voice.

# Zero Latency. Zero Leaks.

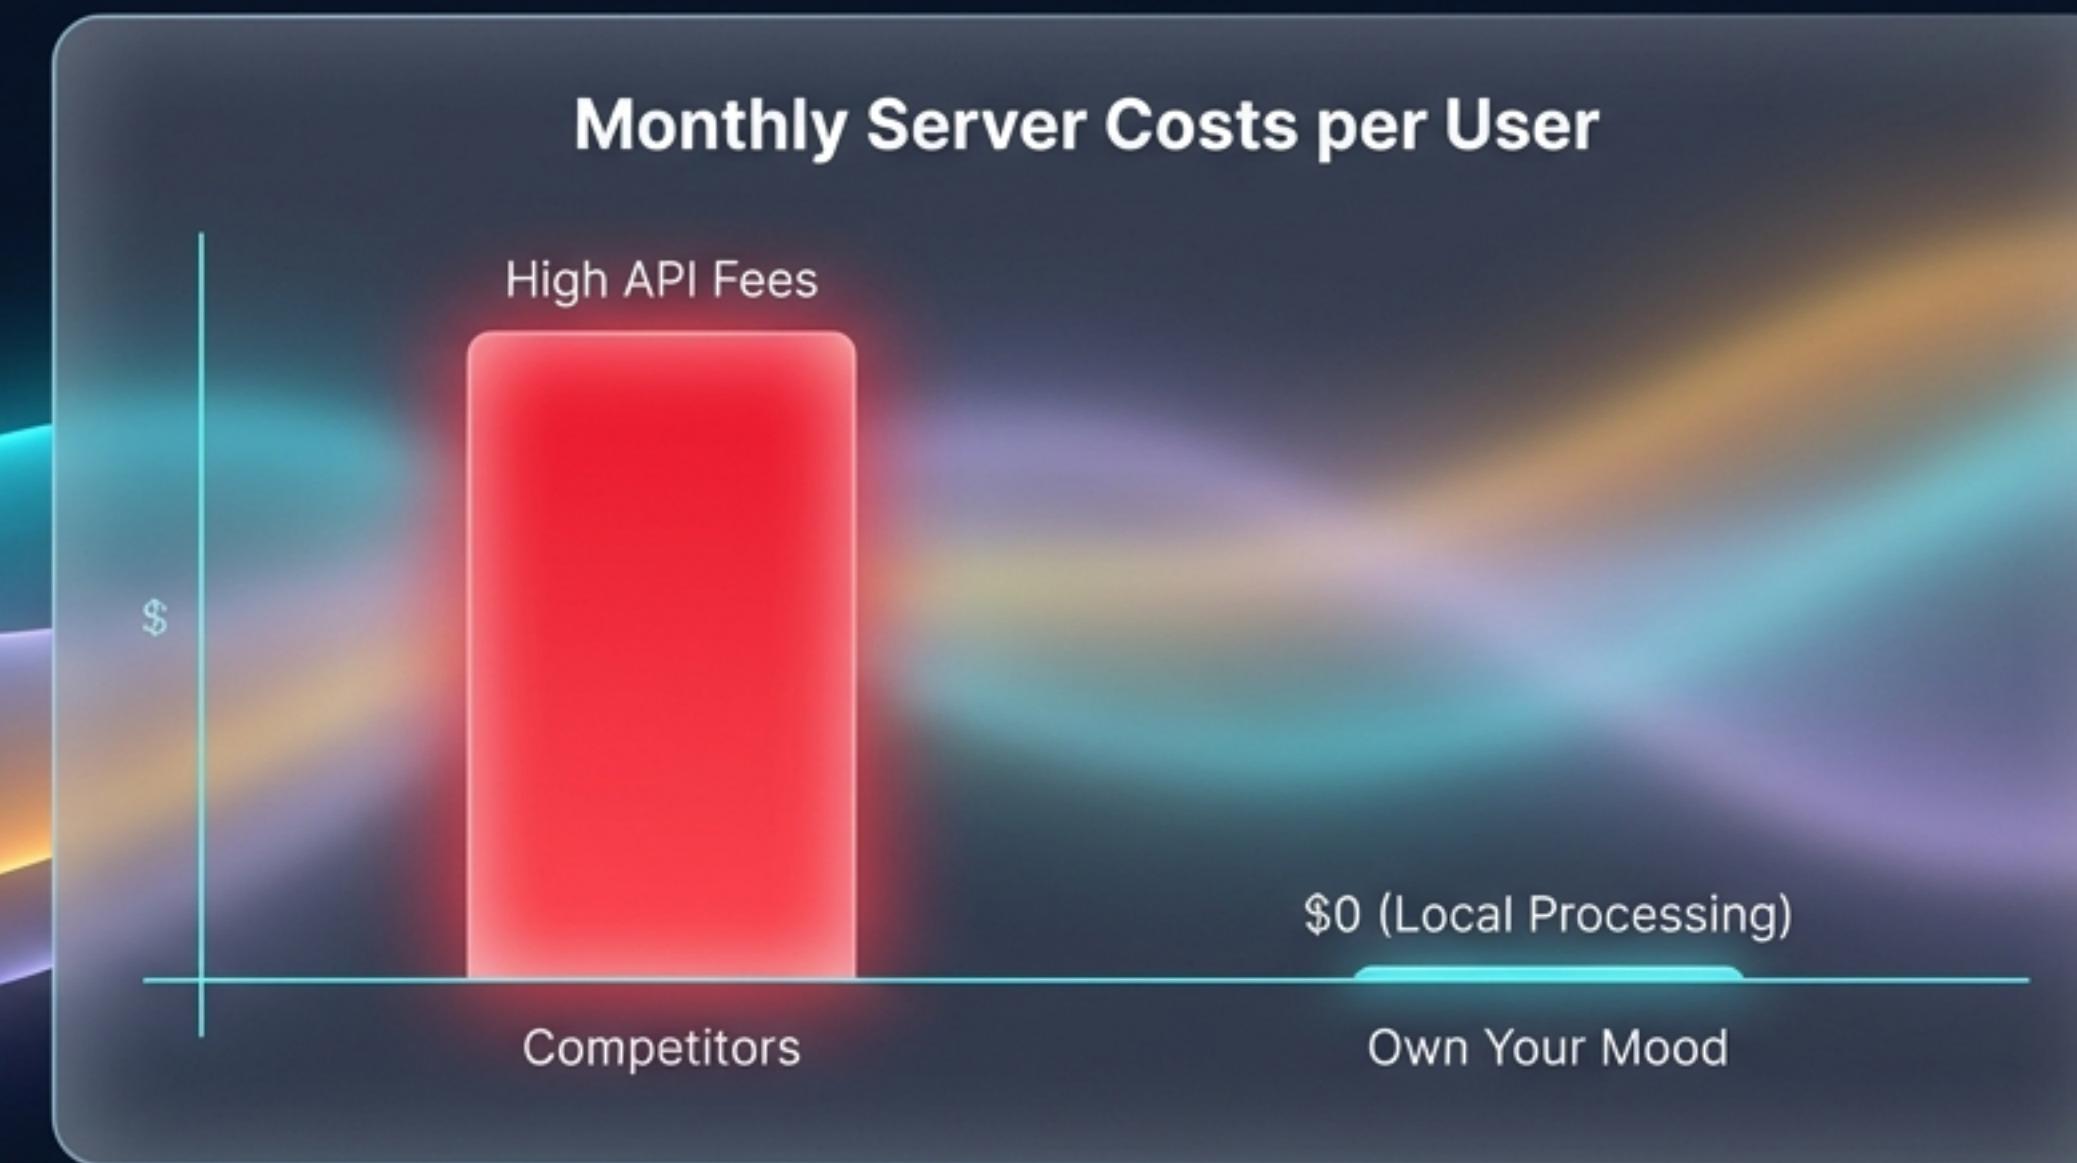

Works in Airplane Mode.

No API Calls.

Immediate emotional reflection.

# The “Eternal Subscription”

## Zero Burn Rate = Sustainable Lifetime Access

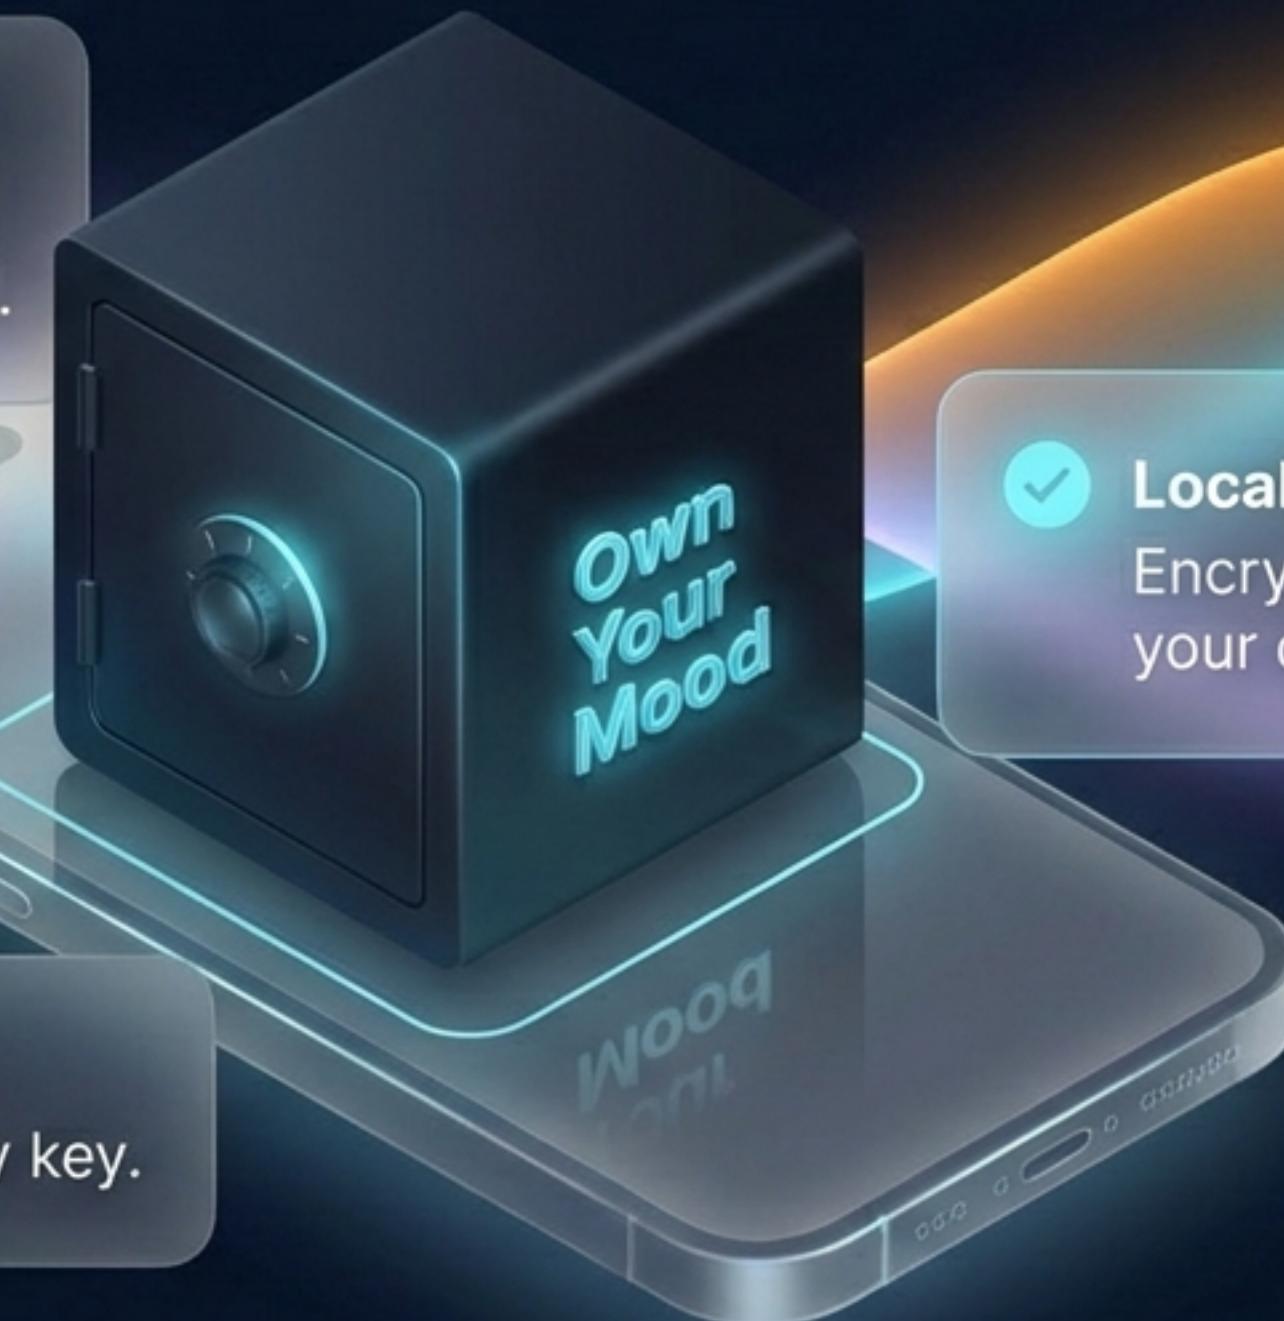

Because we have no server bills, we don't need to rent you your own data.  
Pay once, own it forever.

# Privacy by Design.

## GDPR & HIPAA Safe:

Data is never collected,  
so it cannot be breached.

## Local Partition:

Encrypted storage on  
your device.

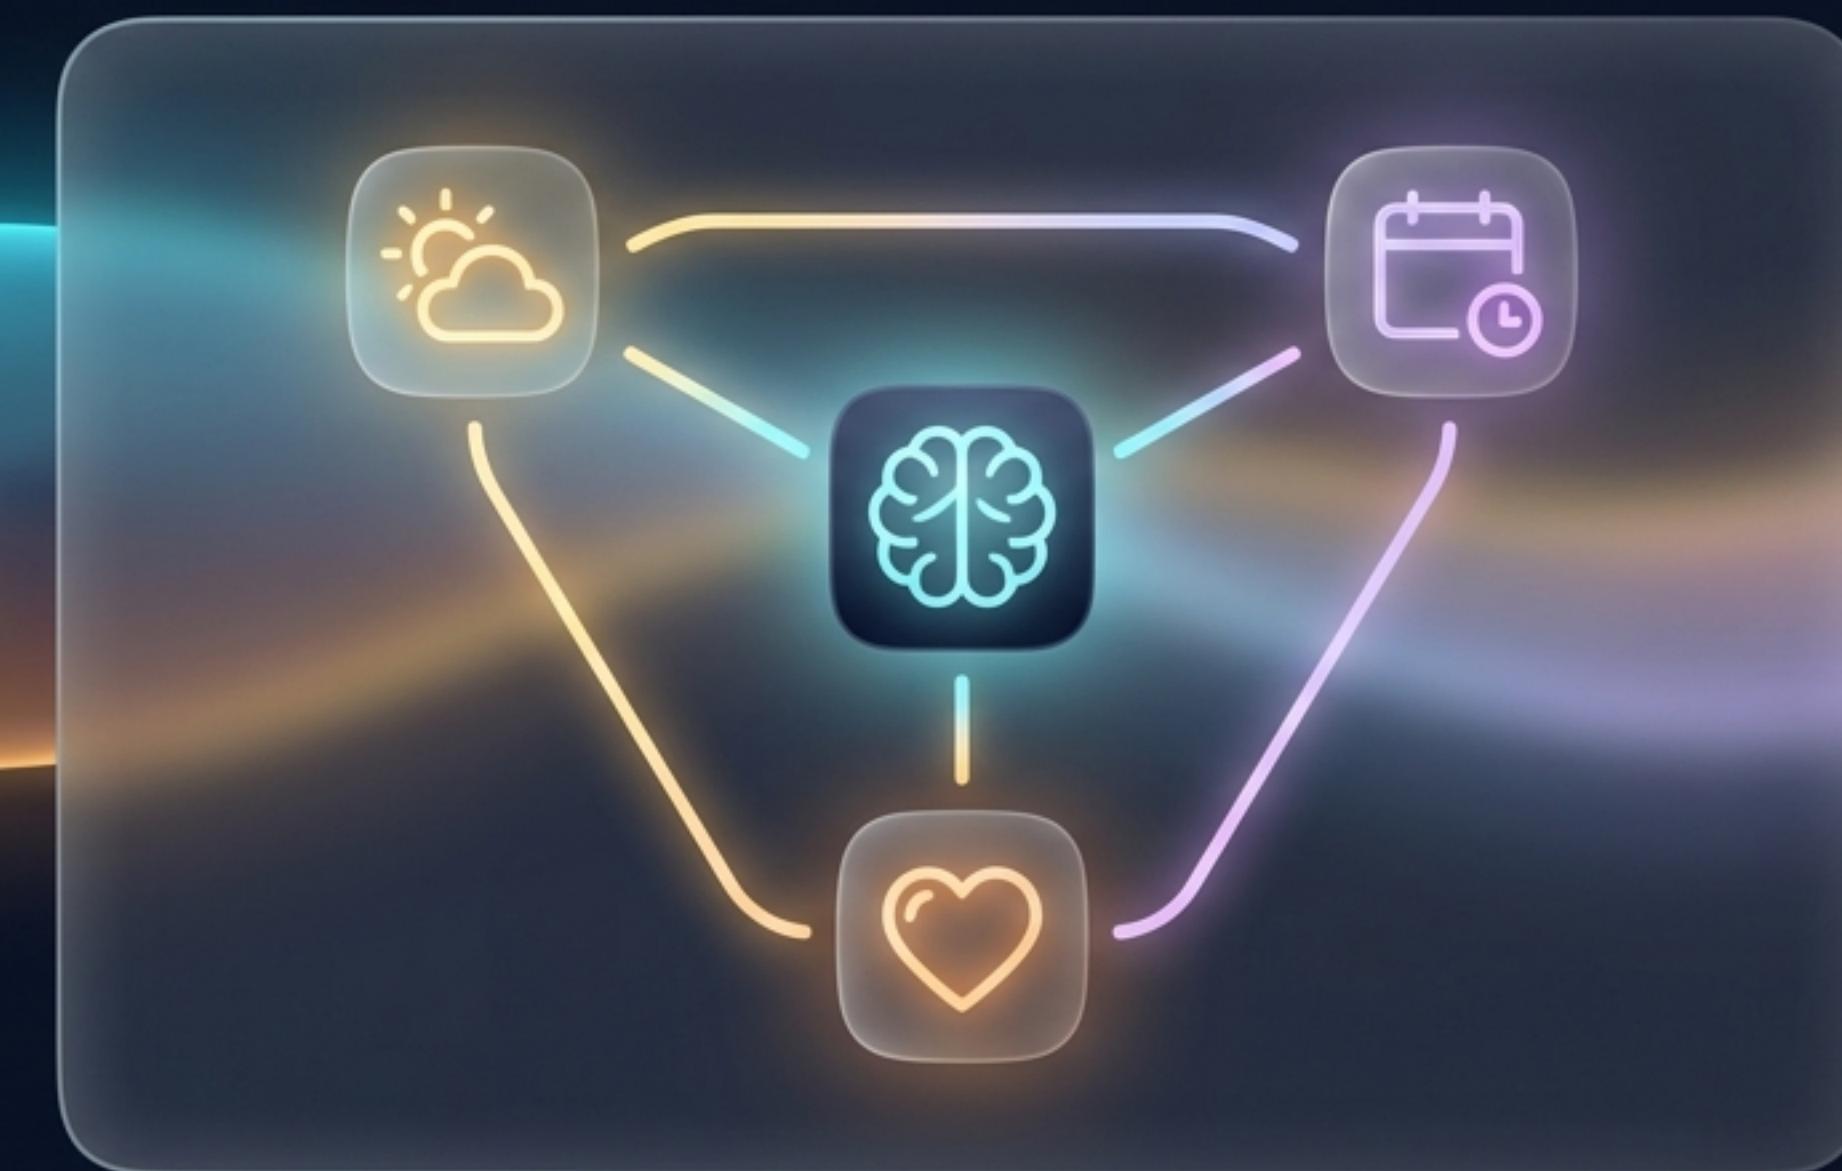

## Total Erasure:

You hold the only key.

# Roadmap: Contextual Emotional Intelligence

Future updates will cross-reference mood with local data to answer questions like: “Do rainy days make me sad?” without ever sharing data.

# Your Voice. Your Data. Your Peace of Mind.

Frictionless  
Voice Journaling

Uncompromised  
Local Privacy

Sustainable  
“Pay Once” Model

*“The only person who accesses your mind is you.”*
